Description

In a world where time matters, the X-City 250 is the smart choice, offering all the power and performance you need for urban commuting.

Distinctive high wheels offer great riding stability and excellent grip, while powerful front and rear disc brakes provide controlled stopping. Kind to the environment and your pocket, the responsive performance comes from a powerful 250cc liquid-cooled, fuel-injected 4-stroke engine.

But it's the subtle design touches that set the X-City 250 apart, including a sleek instrument panel, adjustable windscreen and stylish front design. With a sculpted dual seat, plenty of storage and passenger grips, it's the ultimate high-wheel city scooter.
